GROUP 3500

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Appreciation is hereby expressed for the interview accorded Applicant's counsel (Cecil Schmidt) on May 13, 1997. The interview was attended by Glenn Bolles, President of Anchor Wall Systems, Inc. (the assignee of the present application).

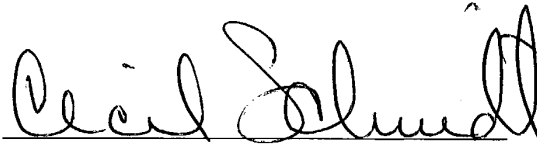

At the interview, the claims were reviewed with the Examiner. The review was greatly facilitated by the Examiner's prior careful review of the recent amendment. The claims discussed were claims 1 and 30-74. The art discussed was the art of record, including that cited in the recent response.

No exhibits were presented or demonstrations conducted.

As a result of the interview, it was agreed that the Claim 66 would be amended to further define/clarify the face of the block. The Examiner agreed to make this change by Examiner's amendment.

With this Examiner's amendment, it was agreed that all claims in the case were allowable, and the case would be passed to issue.
